The SyncHub board adapters migrate the following resources between ADO organizations:

- All **team boards** for an AzDO project, including:
    - Team boards
    - Board options
    - Columns
    - Swimlanes
    - Card rules
    - Card settings
    - Board user settings

Permissions

- **required PAT scopes**: Work Items (Read & create)

Export: Sample config

Command

```
.\synchub.exe run -n "Board-Export" -v "V1" --config C:\Temp\synchub-configs\config-board-export.json -u
alexander.hjelm@solidify.dev -p XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX --license-file
C:\path\to\license-file.json
```

Configuration

```
{
    "configuration":
    {
      "source": "https://dev.azure.com/solidifydemo",
      "ProjectName": "ContosoAir",
      "target": "C:\\Temp\\Workspace",
      "apiVersion": "6.0-preview.1"
    }
}
```

Import: Sample config

Command

```
.\synchub.exe run -n "Board-Import" -v "V1" --config C:\Temp\synchub-configs\config-board-import.json -u
alexander.hjelm@solidify.dev -p XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX --license-file
C:\path\to\license-file.json
```

Configuration

```
{
    "target": "https://dev.azure.com/solidifydemo",
    "SourceFilePath": "C:\\Temp\\Workspace",
    "targetProject": "ContosoAirNew",
    "TeamMapping": "C:\\Temp\\Workspace/mappings/team_map.csv",
    "TeamBoardMapping": "C:\\Temp\\Workspace/mappings/teamboard_map.csv",
    "TeamBoardColumnMapping": "C:\\Temp\\Workspace/mappings/teamboardcolumn_map.csv",
    "apiVersion": "6.0-preview.1"
  }
```
